

# PRAWNE ASPEKTY EKSPLORACJI KOSMOSU

3 kwietnia 2023 r. | godz. 16:00

s. 316, Biblioteka Uniwersytecka w Warszawie, ul. Dobra 56/66

Panel otwierający pt. Challenges in space exploration from a commercial perspective (jęz. ang.)

**Emeritus Professor Steven Freeland** (BCOM, LLB, LLM, PHD) is Emeritus Professor of International Law Western Sydney University and Professorial Fellow at Bond University. He has represented the Australian Government at United Nations Committee Meetings and has advised many Governments on issues related to the national and international regulation of space activities and the development of a national space-industry strategy. He has been appointed by UNCOPUOS to co-chair its Working Group on Legal Aspects of Space Resource Activities, and by the Australian Government as a Member of the Advisory Board of the Australian Space Agency. Among other appointments, he is a Director of the Paris-based International Institute of Space Law and a member of the Space Law Committee of the International Law Association (ILA).

**Donna Lawler** (BA, LLB) is a Co-Founder and Principal at Azimuth Advisory, a member of the International Institute of Space Lawyers and a fellow of the London Institute of Space Policy and Law. She is an experienced commercial space lawyer specialising in complex transactions in the space and telecommunications industries. Over more than twenty years in the satellite industry she has been an advisor to Optus and SingTel on satellite related issues, and more recently, to a range of commercial space organisations, including launch facilities, launch service providers communications satellite operators, and operators of cubesat constellations. She has also practiced technology and telecommunications law at Baker & McKenzie in Hong Kong and Minter Ellison in Sydney.
